

Potentially Fundable Projects

The following is a list of activities of which the ISNCC is seeking financial support. Please contact info@isncc.org for further information.

- § **Patient Education Resources:** Development of patient education resources for an international audience (e.g. symptom management strategies for nurses).
- § **Cancer in the Elder Population Position Statement:** Development of a position statement that addresses issues associated with cancer in the elder population and applies in an international setting.
- § **Cancer in Adolescents Position Statement:** Development of a position statement that addresses issues associated with cancer in adolescents and applies in an international setting.
- § **Revision of the ISNCC Palliative Care Curriculum:** Full revision and update of the original ISNCC Palliative Care Curriculum to be distributed internationally.
- § **Train the Trainer Education Workshops:** Development of workshops to provide education to a specific group of international nurses, capable of training nurses in their geographic areas (e.g. clinical trials, cancer-type specific, etc.).
